

"Leadership for a Healthy Arizona"
Arizona Dept of Health Services

MPH INTERNSHIP OPPORTUNITY

Implementation of Comprehensive Cancer Control Plan, Monitoring and Evaluation of Goals and Strategies

The **Arizona Department of Health Services (ADHS)** is one of the largest departments in Arizona State Government, with a budget of more than \$1 billion and a workforce of more than 1,800 employees. The ADHS is the state's lead public health agency, responsible for protecting, maintaining and improving the health of all Arizonans.

The **Bureau of Chronic Disease Prevention and Control** receives funding through a cooperative agreement with the Centers for Disease Control and Prevention (CDC) to implement the state wide Comprehensive Cancer Control Plan.

THE POSITION: The Intern will be involved with the implementation of the State's Comprehensive Cancer Control Plan. One level of involvement would be to attend the six committees of the Arizona Cancer Coalition: Prevention; Early Detection and Screening; Diagnosis and Treatment; Research, Quality of Life and Health Disparities. The Intern would become familiar with the Seven-Step Modeling process as instructed by the College of Public Health, University of Arizona. By using this tool, the Intern would be able to arrive at goals and strategies for each of the committees.

The Intern will be involved in the monitoring of the activities of the committees by using the Oversight and Compliance Tools. Merit and Worth will be explored with the committees most mature in the implementation phase.

The Intern will be involved in developing a formal training program for new committee chairs and co-chairs and designing an accompanying power point module. The Intern will learn the techniques of effective coalition building and will be involved directly with the coalition members.

The Intern will be exposed to community members who are not yet members of the Arizona Cancer Coalition and will learn techniques for engaging those members into joining the Arizona Cancer Coalition. The Intern will assist with planning of the Quarterly Arizona Cancer Coalition meetings and designing the evaluation tool for the Coalition meeting.

The Intern will prepare a quarterly e-newsletter show-casing the activities of the Arizona Cancer Coalition and work with the IT Department for layout; photos; and for incorporation into the web site for the Cancer Control Program.

ACADEMIC AND WORK RELATED EXPERIENCE OR SKILLS: Seeking MPH candidates with basic knowledge of public health principles and evaluation.
